Scientists have been trying to make soft and friendly robots,like Disney's Baymax,for years. And they have finally done it. The "octobot" is the world's first soft robot. It is not like the scary, metal robots in movies like Star Wars or The Terminator. Instead, it is made of soft material, and looks just like an octopus(章鱼). Octobot is also the first soft robot that control itself without batteries or wires, according to its researchers at Harvard University in the US. The hope is that one day, soft robots like this will help humans do difficult medical surgery(外科手术) and save lives in emergencies like earthquakes and storms.

Scientists have been trying for years to make soft robots that are safe around humans, but this is the first time it has happened. It means that humans won't be in danger of being hurt if robot accidentally touched you too hard, The octobot gets power from a chemical reaction ( ${ { [ { { cm} } ) } }$ ). It pushes gas through the robot's body and makes its legs dance. They used a 3-D printer to create its silicone ( ${ { tel } { { m} } }$ )

The English Corner in Sichuan University is where people

| go to practice their English. Every Sunday                 | 26 |  |  |  |  |  |
|--|----|--|--|--|--|--|
| afternoon, they gather around, , talk to each other in     | 27 |  |  |  |  |  |
| English.Among they are students, teachers, doctors,        | 28 |  |  |  |  |  |
| and so on.I first went to an English Corner when I was     |    |  |  |  |  |  |
| in Junior Grade Two.I went there on every Sunday           | 29 |  |  |  |  |  |
| And chatted with some people in English.In the past        |    |  |  |  |  |  |
| Three years.I have never been absent.I'm sure I've made    |    |  |  |  |  |  |
| Some progress in my listening and speaking. And I have     |    |  |  |  |  |  |
| Made many friends there. The English Corner is really good | 30 |  |  |  |  |  |
| Place.I hope that more friends will join us.               |    |  |  |  |  |  |
