代 词

- 一、 John is an art student and he draws some pictures. Many people say that they understand modern art but many pictures are not "about" anything. People like them just because they are pretty.
However, young children often can see more. John's sister is only seven, but she often tells John something about the pictures.
"What are you doing?" she asks.
"I am hanging this picture on the wall," he answers.
"It looks all right, but isn't it upside down?"
John looks at it again. She is right!

We went to Amazing Museum by bus at eight this morning. We met at the school gate.

In the Amazing Museum, we learned about many amazing things. We knew who invented TV. We also learned about the history of sandwich. The guide introduced some amazing things to us. For example, the goldfish can only remember things in a few seconds. Elephants walk on tiptoe...

We had a good time in it. I think the world is full of amazing things.

We all know that the rabbit lost the first race against the tortoise. After that the rabbit decided to have a second race. This time he didn't sleep. As a result, he won because he was good at running.

However, the tortoise didn't give up. He had a third race with the rabbit. There was a river on the way. The tortoise swam across it quickly and won. The story does not end here. In the last race they took turns to put each on the back and reached the finishing point together. From the story I have learned that with teamwork all of us can achieve success.

Dear principal,

I would like to recommend Zhang Hua for this year's Bravest Student Award.

He is a clever boy. He can learn things quickly. He can also use the computer well. He has good grades at school.

He is helpful. He always thinks of others first. He often looks after the old men at the home for the elderly. Last week, he saved a five-year-old boy from the lake on his way home.

We all think he should get an award. We look forward to hearing from you soon.

Yours faithfully,

Lily

Last Monday, when school ended, I came back home with some of my classmates. On the way, we saw an old woman lying on the ground. Her leg was badly hurt and couldn't get up. We hurried to help her. We wanted to get in touch with her family member, but she was too weak to say a word. Lin Tao called 120 and asked for help. A moment later, an ambulance came and took her to the hospital. I got home late that day. My mum asked me why I was late. I told her everything. She was very glad and said, "What a helpful boy you are! You did a good thing."

When someone is in trouble, we should try our best to help him. It's good to help others. I feel very happy.

My school trip to DIY Centre

Hi, my name is Lucy. I'm a student in Grade 8. Last Friday, my classmates and I went on a school trip to DIY Centre.

We met at the school gate to get on the bus at 8 a. m. And we came back to school at 4 p. m.

When we got there, all of us couldn't wait to get off the bus. In the morning, we made the fresh fruit and sandwiches. At first, we chose the fresh fruit we like. Then we cut the fruit into small pieces. Finally we mixed the fruit together and added some salad cream to the fruit salad. In the afternoon, we also made the poster for the center.

The trip was very interesting. I want to go there again.

Bears are big and strong. They have small eyes, black or brown fur and sharp paws. They can walk upright. They are good at climbing trees and swimming. They like to move around in the daytime and seldom hurt people.

Unluckily, bears are in danger now because people kill them for their fur and paws. So we must take actions to protect bears. We should make the reserves bigger, build more reserves and encourage farmers to leave the reserves.

If we don't take actions, there will be fewer and fewer bears in the world.

My Favourite Season

My favourite season is spring. Spring days are windy and bright. It's neither too cold nor too hot. People don't need to wear too many warm clothes. When spring comes, everything looks so beautiful. Flowers begin to come out and leaves turn green. Many bees and butterflies are flying among the flowers.

It's the best time to fly kites outside. People also like to go on an outing with their friends or families at the weekend. Sometimes it rains. It usually rains quietly. I think people can enjoy their life in this nice season.

B) A snowstorm hit Nanjing on Wednesday, 29th January. It got worse in the afternoon. I was at school and Mr. Wang told us to go home early. On my way home, the weather was really terrible. We could only hear the wind. Snow continued to fall around us. Suddenly a strong wind came from behind. We lost our umbrellas in the wind and I nearly fell over. We could do nothing but walk slowly in the storm. At last, we got on a bus and went home.

The next day, I heard the noise of traffic. I looked out of the window and saw people in a hurry to remove/clear the snow.

A New Town

Sunshine New Town is in the south of Nanjing. It has changed a lot in the past five years.

There used to be many big factories here. Now the government has moved them all away, so the air is fresh and there is no pollution. However, there are still a few problems. One of them is that there are few bus lines. But I believe all these problems will be solved soon. The new town will become a wonderful place to live.

Since creating the civilized city and countryside, all the people in Nanjing have made joint efforts. Their good behaviors can be seen everywhere.

As junior students, we have also made some contribution to the civilized Nanjing. For example, to protect our environment, we plant flowers and trees. Also, for our own and others' safety, we obey the traffic rules. In addition, we no longer talk or laugh loudly in public. What's more, when on a bus, we actively give our seats to the people in need.

Besides, we have formed a good habit of throwing rubbish into a dustbin. Furthermore, we are used to queuing up for tickets or something else.

All in all, we will try our best to make our city more civilized.

The Green City, the Healthy Life

As a citizen of Nanjing, it's our duty to help build a green city so that we can live a healthy life. We can reduce air pollution by riding bicycles. It's better for us to put rubbish into the rubbish bin. In this way, we can keep our city clean. And we'd better plant more trees to protect the natural environment.

In my opinion, I will try my best to make our city cleaner and more beautiful. Firstly, I can save water by taking shorter showers. Secondly, I can save energy by turning off the lights when I leave the room. In a word, everyone can do something to make a difference.

Dear Mrs. Zhang,

I'm writing to recommend Bob as/to be our new monitor. He has many strong qualities for this position.

Bob is very helpful. He is ready to help us when we are in trouble. He often gives his seat to people in need on the bus. Bob is hard-working. He often does extra work for our class. Bob is patient. He usually repeats things for us without getting angry.

I think Bob is the most suitable person to be our new monitor. I hope you can agree with me.

Yours,

Jenny

red	power and strength
white	calm and peace
orange	joy and warmth
yellow	wisdom and success

B) As we all know colors can influence our moods. I hope our new school uniforms will have the following colors.

I think the yellow T-shirt will be a good choice. Yellow can remind us of a warm sunny day. It is also the color of wisdom. Every student hopes for success at school, so we should wear a yellow T-shirt.

White can bring peace to our mind and body, so I think it's better for students to wear white trousers. We need a quiet environment to study.

Anyway, I think yellow and white are a good match.

Dear Tom,

I'm so glad that you tell me about your problems. Students of our age may have problems like you.

You say you don't get enough sleep. Why not manage your time better and go to bed earlier? You worry about your Maths and often get low marks in Maths exams. What about listening more carefully in class and doing more Maths exercises? Sometimes you can also ask the teacher for help. You are unhappy with your weight. Why don't you exercise more and eat less? I think this may be of some help to you.

I hope my suggestions will be valuable to you.

Yours,
Ella

The only problem with Rip was that he was very short. He was just 150cm tall. Sometimes Rip felt unhappy about his height. His parents were not as short as him. They thought there was something wrong with their son, so they took Rip to see the doctor. The doctor examined him very carefully, but he thought there was nothing wrong with him. He was a healthy young man, just a little short. The doctor told Rip that size and body type didn't matter. A heart full of kindness was much more important than appearance and size. Rip thanked the doctor and went home with his parents.

From then on, Rip didn't worry about his height any more. He lived with his neighbours happily in the village.

Have you heard of Xu Zheng? He is not only a famous actor but also a talented director in China. He was born on 18 April, 1972 in Shanghai. In 2000, he acted in *Sunny Piggy*. This event marked the beginning of his successful career. In 2010, his film *Lost on Journey* impressed us a lot. Two years later, another film called *Lost in Thailand* was a big success. I think this film made him one of the most famous actors in China. In 2014, *Breakup Buddies* also attracted too many film fans to the cinema. So far, he has acted in nearly 30 films and has won many awards.

I like his films very much. I think he has a gift for acting.

A detective story

Five days ago, a theft took place in our city. Two burglars broke into a flat and stole some jewellery and valuable things. There was nobody in it at that time. A witness who went home from work found something unusual and called the police at once. When the policemen came to the scene of the crime. The burglars had gone away in a car. The policemen checked the scene carefully. Luckily, they got some very useful clues.

Two days later, the burglars were caught in their sleep at home. The witness got a reward of ¥5,000.

Learn to relax ourselves

Our school life in Grade 9 is very busy. We have a lot of homework to do and often feel tired and sleepy. So it's very necessary for us to learn to relax ourselves. Listening to music is a good way to relax after a hard day's work. If possible, watching documentaries on TV helps us learn more about real-life events and nature. If we have free time at the weekend, why not go to the cinema? Our favourite film star may bring us a lot of happiness. Do you think it's a good idea to do sports? If so, let's play ball games together.

Relaxing ourselves can make us feel energetic and happy. In my opinion, it's very important to keep a balance between learning and rest.

I think Thomas Edison is one of the greatest inventors that have ever lived. He was born on 11 February, 1847 in Ohio.

During Edison's lifetime, he created a lot of inventions, some of which are still used now. In 1877, he improved the telephone and made it in use. In 1880, he invented the lamp, which solved a practical problem.

When he passed away in 1931, the whole America turned off the light to remember him. Thomas Edison always worked hard. He never gave up. That is why I admire him so much.

Dear Sir/Madam,

Last week, I bought a robot from your shop. However, I am not satisfied with it at all.

First of all, I'm unhappy with its batteries. They just lasted for one week, but I think they should last for 3 months. Next, I think a robot should work 24 hours a day, but it only works 5 hours. What's more, the robot should do many different kinds of work. But it only does some simple things. The quality of this robot is not up to standard either. A good robot should only need checking every 6 months, but it needs checking every week.

I regret having bought a robot like this. I'd like to get my money back.

Yours faithfully,

Zhang Hua
