First, you should choose a friend. What makes a good friend? It is not because a person has money or good looks. A good friend should be kind and patient. For example, if you have a bad day, a good friend should listen to your complaints and do his or her best to help you. To make a friend, you can not be too shy. You should make each other happy and share your lives. But things cannot always be happy. Even the best friends have fights. What should you do when you have a fight with your friend? You have to talk to him or her. When there is no one around, have an honest talk. If he or she doesn't want to talk, you could write a letter.

There are three steps to be friends again: Tell him or her how you are feeling, say what your friend has done wrongly, and explain why you did this or that. Remember that friendship is the most important thing in your life.
