书面表达

21. 【答案】 Possible version 1:

On behalf of our class, I'd like to introduce our class logo to you. Specifically, it consists of three images: the sun, the sea and a sailing boat. The sailing boat is heading for its destination at full speed on the wavy sea with the sun rising above the horizon in the background.

The design is rich in meaning, which in turn mirrors the image of our class. As you can see, the whole class is forging ahead to our goal and our bright future steadily and smoothly.

as the sailing boat indicates. However, there is more to it. The voyage to our destination may not always be smooth since the sea may get wavy and wind will be against us, but we will face the waves and the storm bravely and try our best to get the boat on its track and to its destination. As senior students, we will come across many challenges along the way to pursue our dreams, such as obstacles in study, or interpersonal relationships, but we will always face them and tackle them unwaveringly. That's exactly the spirit of our class and the spirit we hope each of us can carry with us during our lifetime. With the spirit, we also believe each one of us will be growing healthily and optimistically under the warm sunshine.

I am sure you will feel in person what the class logo symbolizes in this aspiring and unwavering family. Hope you enjoy your stay with us. Thank you!

Possible version 2:

Ladies and gentlemen,

Welcome to our class. What you are looking at is our class logo, which is made up of the sea, a sail and the sun. The sea is a symbol of our life, the sun is our hope and direction, while the sail can be compared to ourselves. The logo carries our hope that we will sail through the sea of our life smoothly. Of course, we understand that life won't be easy, therefore we hope we will always have the courage and strength to face whatever comes in our way.

Hope you enjoy your stay with us. Thank you!
