My Collection

Hello, everyone. I'd like to show my collection here. My collection, a hand drawn Guangzhou map, was collected last year. My father gave it to me as my birthday gift. It is the apple of my eyes, resulting from the fact that it can help me learn about places of interest in Guangzhou. What's more, it is drawn very carefully by my father, which

is really full of father' s love. That is all about it.

Thank you for your listening.
