## 十、书面表达（满分 15 分）

### Growing up with reading

Reading can not only make us get knowledge but also open our minds. What's more, we can gain happiness through reading. It's important for us to choose proper books to improve ourselves such as some novels and articles from famous writers.

How to make reading more efficient? We should take advantage of free time to read. When we are reading, we should think more and take some notes because it is significant for us to develop a good habit. We shouldn't read when we are watching TV and playing. It will waste our time.

All in all, we should read more and make reading become a part of our life.
