She did not drive fast because she was old, but she drove well and never hit anything. Sometimes her grandchildren said to her, "please don't drive your car, grandmother. We can take you to the shops."

But she always said, "No, I like driving. I began to drive fifty years ago, and I'm not going to stop now."

Last Saturday she stopped her car at the traffic lights because they were red, and then she couldn't start the car again. The lights were green, then yellow, then green again, but her car did not start.

A policeman came and said to her kindly.

"Good morning. Don't you like any of our colours today? "

New rules for Grade 6 students in primary school come out in March. The school is going to use a new way to decide who the top students are. The best students won't only have high marks. They should follow the rules too. The following are some of the new rules.

Don't copy someone's work in a exam. That's not something an honest student should do.

Do more at school. Good students love animals and care for other people. April is Bird-loving Month in China. Is your school doing anything for the birds? You should join! And you can learn more about animals and how to protect them. Be friendly to the people around you. Try to think of others, not only yourself.

Be open to new ideas. Do you think people can live on the moon? Maybe you'll find another Earth someday. Don't look down upon new ideas. Everyone's ideas are important. You should welcome them, because new ideas make life better for everyone.

Protect yourself. Has someone ever taken money from one of your classmates? Don't let it happen to you. If you have to go home late, you should let your parents know.

Use the Internet carefully. The Internet can be very useful for students. But some things on the Internet are not good for children, so try to look at web pages that are good for you.
