23 Life is very important for everybody. We should pay attention to it. Our school life could be dangerous if we are not careful enough. For example, one day, two students ran after each other in the hallway. Suddenly, one of them fell down and hurt his leg. So he had to stay in the hospital for several days. So I think students should walk and do not run in the hallways. And the teachers should stop them from running. At last, I hope all the students should pay attention to their safety in school.
