20. 【答案】 Nowadays, shared bikes are becoming more and more popular among Shenzhen people. There're many advantages and disadvantages that shared bikes have. On one side, bicycle sharing makes it very convenient of people's traveling. You can find a shared bike anywhere at any time. In addition, shared bikes are helpful to our environment and body. On the other side, its management is not perfect. Even kids can destroy the bikes. What's more, bikes are usually placed at any places and often cause traffic jams.

As far as I'm concerned, we should take actions to regulate this situation. So we intend to organize some activities to solve this problem, such as leading people to obey traffic rules

and publicizing the importance of riding bikes civilly. So let's gather at the school gate on next Saturday morning. I hope our actions will make our city more beautiful and harmonious.
