18

B

Imagine the situation. You are driving along a desert or on a mountain. You have no idea where you are. You passed the last house two hours ago. Then your car breaks down. It is night and it is cold. You have no mobile phone. What do you do? Well, next time take a GPS with you. This invention may be able to help you. It is a device which uses satellites to find the user's position. It can find your position to within 20 meters. A GPS cannot start your car, but at least

you will know where you are.

GPS, which means Global Positioning System, is a small radio receiver. It looks like a mobile phone. You can hold it in your hand, or put in your pocket. It is sometimes put into a watch or a telephone. We also find GPS devices in cars, planes, or boats. Some of these devices have electronic maps, so you know where you are. For example, in a city they can tell you the name of the street.

There are three parts to the Global Positioning System. The first part is the receiver. You can hold it in your hand, or have it fixed onto your car, plane, etc. The second part is a group of the satellites and calculates its position. The third part of the system is a network of ground stations. They are all over the world. They control the satellites and make sure they are working well.

Some people think that in the future the GPS will be as common as the mobile phones. They are becoming cheaper and more and more accurate. There are also new uses for the GPS. Perhaps they will become like watches. Everyone will have one and you will never be lost again.

- (1) According to the passage, with the help of the GPS, people _____.
A. can't be lost in a new city
B. can't find their way in different countries
C. can't learn about the culture of an unknown place
D. can spend the least time getting to another place
- (2) We can learn from the passage that _____.
A. there are three parts to the GPS
B. a GPS can't be put into a watch
C. a GPS can help you start your car
D. the GPS are becoming more and more expensive
- (3) They underlined word "they" in paragraph 3 means " _____ ".
A. receivers B. GPS devices C. satellites D. ground stations
- (4) The passage is mainly about _____.
A. the history of the GPS B. the introduction of the GPS
C. the shape of the GPS D. the three parts of the GPS
- (5) What can we infer from the passage?
A. All GPS devices have electronic maps
B. People in many countries will use the GPS for free
C. The receiver of the GPS contacts at least five of the satellites.
D. The GPS will become more and more common in everyday life.

It was on April 10th 1912, when the Titanic sailed for New York. She was carrying more than 2,200 people.

At that time she was not only the biggest but also the finest of all the ships, for she had sixteen compartments (密封舱) with her. If four of them were broken, she would still be able to stay on the water.

Four days later, while the Titanic was sailing across the sea, the watcher suddenly saw a very large iceberg (冰山), 100 feet tall. The great ship turned in time, but after a few minutes there was a sudden sound from below. The noise was so low that no one knew what had happened. The captain went down and was greatly surprised to see that five of her compartments were broken. The Titanic was going down fast.

The captain gave the order to give up the ship and hundreds of people jumped out into the water. At last over 1,500 people lost their lives because there were not enough lifeboats.

- (1) The titanic was the name of _____.
A. woman
B. ship
C. captain
D. country
- (2) Which of the following is wrong?
A. The titanic was the biggest ship that time.
B. The titanic was the finest ship that time.
C. The titanic could stay on water with four compartments.
D. The Titanic could carry about 2,2000 people.
- (3) What broke five compartments of the great ship?
A. The large iceberg
B. The low noise
C. The sudden sound
D. The lifeboat on the Titanic
- (4) The captain decided to give to his ship because he knew _____.
A. he could do nothing to save her.
B. a lot of people jumped into the water.
C. the iceberg was not far away.
D. little about the ship.
- (5) How many people were saved in the end?
A. No one.
B. About seven hundred
C. More than

D. Half of the people.

20

D

Now more and more students go to school by bike. On their way to or from school, they ride their bikes fast. They thought it was very "cool" .

In fact, it is very dangerous. I would never forget the traffic accident that happened at the gate of Guangming Middle School on September 12, 2015. It was bad!

Liu Liang used to ride his bike very fast. That day, he rode as fast as usual. Suddenly, he saw two students walking across the road just in front of him. He had to turn not to hit them. Unluckily, a car knocked down him and he was sent to hospital. At last Liu Liang lost his left leg.

Safety is more important than being "cool" . We must remember this and follow the traffic rules all the time.

- (1) What did some students think was very cool?
- A. Riding bikes.
 - B. Riding bikes fast.
 - C. Having new bikes.
 - D. Their bikes.
- (2) What happened to Liu Liang on September 12, 2015?
- A. He had an accident.
 - B. His bike was lost.
 - C. He hit two students.
 - D. He hit a bus.
- (3) Why did the car knock down Liu Liang?
- A. Because the car drove too fast.
 - B. Because Liu Liang's bike was broken.
 - C. Because the two students pushed him.
 - D. Because he rode so fast and turned not to hit two students.
- (4) Liu Liang lost his ____ .
- A. left hand
 - B. right hand
 - C. left leg
 - D. right leg
- (5) What do we know from the passage?
- A. Children shouldn't ride their bikes to school.
 - B. Cool is more important than safety.

- C. We all should follow the traffic rules all the time.
- D. We should go to school on foot.

四、单词填空

21 根据句子内容填空，或者用括号中所给词的正确形式填空，要求语法正确，逻辑通顺。
