Guangzhou is such a fantastic city that visitors may find many warm welcomes.

Located in the north of Pearl River Delta and covering an area of 7434 square kilometers，the capital city of Guangdong Province is the third largest city in China. **With the climate wet and warm and flowers blooming all year round**, Guangzhou is honored as City of Flowers. Traffic jams can be serious in rush hours **for its enormous population**. **Thanks to** the developed laws, Guangzhou's public security is pretty good. People can still walk in the street late of night. It is amazing that it owns beautiful scenery and convenient transportation, making it attractive to visitors from home and abroad.
