3:can  
4:learn
  - (7) 1:make  
2:up  
3:your  
4:mind

## 六、书面表达

---

**With the development of technology**, bike-sharing comes into people's lives, and it becomes more and more popular in Guangzhou. **Speaking of the reasons**, there are two sides I need to mention. **On the one hand**, shared bikes enable us to manage our time better, so we don't need to worry about traffic jams or spending a long time waiting for the bus to come. **On the other hand, there is no doubt that** cycling can **not only** be beneficial to our body health, **but also** reduce the pollution.

**However, everything has both advantages and disadvantages, so shared bikes do.** For example, because of unperfect management, some shared bikes are put everywhere, **so it makes it harder to keep the city clean.** **Worse still**, many people deliberately break or steal it, like throwing it to the river or destroying the code above it.

**Confronted with** the above problems, my suggestions are listed as follows. **In the beginning**, we are required to start from ourselves and stop other immoral behaviors. **Furthermore**, attention should be paid to improving its management, such as replanning the parking zones and increasing the number of workers.
