Dear Headmaster,

Lately our class are worried about the area at the back of the school, and we would like to do something to make it more beautiful. We collected some information and came up with a plan. With the help of our parents, we can do most of the work, but we will need a small amount of money for plants and paint. I am writing to ask the school council（委员会）for permission（许可）to do the work, and I also hope they can **donate** $500 for our plan.

We would like to turn the empty land at the back of the school into a nature garden. We would plant trees and grasses, make paths through the garden and dig a small pond. We think this will provide a quiet place for students and teachers. It will also attract birds and other small animals. We would like to paint the back wall of the school that faces the new garden. Some of our art classes could then paint a large picture on it.

Lastly, we would like to paint all the rubbish bins. At the moment they look old and the paint is coming off. If we paint them in bright colours, students might like to use them. We think

our plan will make the back of the school much more beautiful than before, and everyone will like it. Our parents will also spend a weekend helping us finish the plan.

We hope you will give us permission for this plan and will be able to donate the $500 we need. When we have finished the work, we hope you can come to our party so that the whole school can thank you.

Yours sincerely,

Jim White
