3:from

19 1:What

2:beautiful

3:hair

20 1:can't

2:watch

3:unless

七、书面表达（15分）

21 Good morning everyone! Today I'd like to introduce the music robot my father gave me last month as a present. The robot has a round shape and it's not big. It needs to connect to the Internet before using. Then I can control it in my own voice and also talk to it. It is able to provide many kinds of services for me, such as playing music, checking the weather, asking questions about all things, voice reminding me of important things and so on. In my spare time, I often listen to music by saying "music" to the robot. It's quite convenient to control it. I like the robot very much and I hope to make full use of it.
