2019中考英语人教版九全 Unit11—12 阅读+重点单词回扣练

一、阅读理解。

A

These days the subject of safety on campus is talked about quite often. Some students' mobile photos are stolen, some students fight with and hurt one another, and others are knocked down by the fast running motorbikes or cars.

These problems are common on campus. I think there are three causes for these. Firstly, some students don't take care of their own things. They are still young and not careful enough. Secondly, some students want to do everything well. They want to be the winners in exams, and they also want to be the winners in fighting. And thirdly, the campus guards don't carry on their duties well..

In order to have a safe campus, all the students should be very careful about their own things. They should also mind their behaviors and act politely. The campus guards are supposed to be devoted（致力于）to the safety on campus, and it is their duty to safeguard a safe campus to help provide a good environment for the students.
