37 Dear Lily,

I'm sorry to learn that you are upset about being overweight recently.

I think you should stop taking weight-loss pills in no time because they are harmful to your health. Besides you need to eat a healthy diet to recover your strength. There are many other ways to lose weight. For example jogging is quite a popular form of exercise. You may do it in the morning or after supper. Another way is that you can go to the gym regularly which is also an effective way of losing weight and keeping healthy.

In a word if you insist on exercising you are sure to have an attractive figure and stay slim and healthy.

Yours

Li Hua
