40 Dear Jay,

How is everything going? I am glad to know that you are going to study in Canada, and I am writing to share with you some information about this country.

Covering an area of 9.98 million square kilometers, Canada is the second largest country in the world, **owning most lakes and plain water**. Climates in various area can be greatly different, most of which are fairly cold, and winter in Canada are obviously **longer than that in Japan**. **When it comes to study**, I highly recommend to you the universities in the west since fewer foreign students will choose them and, relatively, they cost less tuition. Among the western cities, Vancouver **is especially worth considering** for it's thought to be the most beautiful and warmest city, **where the Winter Olympic Games 2010 will take place there**.

Thinking of my trip, **what deeply impressed me** was that Vancouver is surrounded by mountains and Pacific Ocean. **So fascinating it is that you can't miss it!**

Hope it will be helpful for you to make a decision, Jay. Wish you a good day!
