Around 10.9 billion gallons(加仑) of water is drunk each year, and 12.8 billion gallons of soda. Soda is the most popular drink. It's fizzy (冒泡的) and enjoyed with friends. Perhaps it is the drink of choice for parties.

However, if you are playing sports, soda is not a good drink. The fizzy and sweet drinks may make you uncomfortable (不舒服的) while you are taking exercise. The best drink for sports is water. That's because it has no calories and keeps you fresh during sports. Besides, doctors tell us that drinking water each day is healthy.

My skill(技能) of food photography has improved(改善) very fast, while my interest in food drops slowly.
