Reading an English newspaper is a good way to improve a student's language ability(能力). As there are many useful and common words in an English newspaper, it may help students know more English words and improve their reading skills. They can get new knowledge from newspapers. But what is the proper way to read an English newspaper?

The first is to choose a right newspaper with good language. Then turn to the front page and read the headlines(标题)to know what has happened. Because the most important things are on the page, it's easy to find out what you are interested in and then turn to the page to read it. There is no need to go through all the articles.

Second, read newspapers every day. Remember words through context (上下文). Don't look up every unknown word in your dictionary. You can try to guess the meaning between sentences. Don't give up if your guess is wrong. Keep reading, and you'll know the words after reading them several times in different texts.

Reading English newspapers makes us knowledgeable (有学问的). It can help us know what is

happening in the world and improve our English at the same time.
