The day when we returned to school was impressive. Because ~~^~~ the COVID-19 outbreak, we  
of  
had to stay home during the three months' "vacation". I was touching when I stepped into the school,  
touched  
where remained clean and neat. The staff must have worked hard to keep everything tidy  
which  
and safe but we could study in a comfortable environment. There were sign telling us to wash  
so signs  
hands frequently and wearing masks. Mr. Chen, our headteacher, greeted us warm in the  
wear warmly  
classroom. A mask ~~was~~ covered most of his face, but his eyes were shining. He said we had done  
his part to stop the disease spreading. What a unforgettable day!  
our an

第二节 书面表达（满分25分）

One Possible Version

Dear Jeff,

Thank you for your attention to the activity themed "The Scientist I Admire Most", which was organized by the Students' Union of our school. I am more than willing to tell you about the event.

I shared the story of Mr Yuan Longping, an agricultural scientist known as "Father of Hybrid Rice". He developed the world's first successful hybrid rice varieties, which dramatically increased rice production in China. His approach to rice breeding also serves as a solution to food problems around the globe.

The scientists' stories shared by other participants truly inspired me, motivating me to truly love science by making great contributions to it. Could you please tell me about your favorite scientist?

Yours,  
Li Hua
