My dear friends,

I'm your friend, Master, from the future. I know you have some problems to deal with in Grade 9. Here, I have some suggestions for you to think them over.

The most important thing for you is to learn how to learn well. You'd better learn more about history, culture, science and technology. Museums are the best places for you to explore your eyes and rich your mind. If you have time, try to learn some talents on music and art. They can help you to know better who you are. Remember, to be a person with independent thoughts and feelings can help you to live a better life in the future.

Good luck to you all!
