My Changes

Now I have already spent six years in primary school and I have changed in several different ways. I was short and thin when I was in Grade One. Now I'm tall and strong. I was quiet at that time. Time goes by, I become much more outgoing. As for hobbies, the only

hobby I had was reading, but I have some new hobbies now. I like writing my own stories. I also love to go hiking with my family. I can only draw paintings when I was little. Now I can also sing songs very well. I have more friends than before. That's the happiest thing in the primary school.
