九、书写（共1小题，共5分）

49 Modern English

Modem English appeared during the Renaissance in the 16th century. Because of this, Modem English includes many Latin and Greck words. Pronunciation also went through huge changes during this period. Of course, this was not the end of the changes in the English language. The question of whether English will keep on changing in the future is easy to answer. It is certain that this process will continue, and people will keep inventing new words and new ways of saying things.
