- 19 1:how
2:he
3:lost
4:weight

- 20 1:fell
2:asleep
3:was
4:listening

七、书面表达

21 Dear all,

I am Li You're your monitor. We have all stayed at home to have online classes since the new term began because of the serious pandemic. But in the course of online class, we all had some problems. Here I summarize four problems with high frequency. First, we always forget the time of online class and can't attend the class on time. Secondly, due to the different Internet speed in different places, sometimes students cannot hear the teacher's voice clearly, so they may miss a lot of key points. Third, because everyone was having class through the screen, the classroom atmosphere was not good, and most students did not actively answer the teacher's questions. The fourth is that people often don't submit their homework on time.

We don't have the power to change anything. What we need to do now is find ways to solve these problems. Here are some of my suggestions. First, you can make a schedule of online courses, log in ahead of time when you have classes. Second, maintain the network at home, ensure smooth access to the Internet. Third, write a homework list by yourself, check every day what homework has not been submitted, and then timely submission. Finally, I hope all of your problems can be solved.
