Shared Bikes in Guangzhou

Hello, everyone, I'm glad to tell you something about using shared bikes in Guangzhou. Shared bikes are quite popular here in Guangzhou for two reasons—first, it is convenient to use them. All you have to do is to scan the QR code on the bikes to use them. Second, using shared bikes can not only help you keep healthy, but also help protect the environment.

However, it does cause some problems when we don't use them properly. For example, some people might park them in the middle of the road, causing trouble for people walking on

the streets; others might scratch the QR code to prevent other people from using it.

Therefore, I would like to advise the shared bike company to do the following: have GPS installed in each and every shared bike. When it is parked in a place where it's not supposed to park, it will make loud noise to warn the user. That way, people will use it more carefully.
