Zhong Nanshan—A famous Doctor

Zhong Nanshan is a famous Doctor. He was born in Nanjing in 1936. When he was a child, he made up his mind to become a doctor just like his father. In 1961, he graduated from Beijing Medical College. In 1979, he went to the UK for further study. He did so well in his studies that his professor tried to ask him to stay in the UK. However, he still chose to return to China in 1981.

In 2003, Dr. Zhong Nanshan made a great contribution to fighting against SARS. And now, although he is already 84, he still takes an active part in the battle against COVID-19.

In my point of view, Dr Zhong Nanshan is a real hero because he helps save a lot of lives and brings us confidence in winning the battle.
