Guangzhou City in the Future

As time goes by, there are going to be many changes in Guangzhou City in the future. With the development of science and technology, the houses people live in will be smart and environmentally friendly. And the room is warm in winter and cool in summer. Most people work at home, which is very convenient and effective. Fewer and fewer people go to work in factories. In addition, people often take a holiday on the moon as one of their holiday activities. Most importantly, the city traffic is getting more and more convenient. People can have a land-

air dual-purpose flying car, which greatly improves travel efficiency. Everything in Guangzhou is developing in a good direction.
