After lunch, Ali, Bilal and Ahmed went to play in the park. Suddenly the wind started blowing fiercely and a huge spaceship appeared. The kids became scared so they ran to hide behind some bushes.

They saw a tall creature came out. It had big bulking eyes like marbles, just like the alien they saw in the movie.

The alien noticed the boys and said in a loud voice, "Don't be scared, my friends. I come in peace! The engine of my spaceship has gone out of order. I had to make a landing, Will you help me in fixing it, please? "

The boys slowly came out from the bushes and met the alien. They were still scared but the amiable alien soon brushed their fears away. They introduced themselves and then took him to their home, where they served him food.

The kids turned on the TV and soon news of a terrorist attack was shown on it. The alien asked, "What's all this? "

Bilal told him that wars and fights are problems in many countries now. The alien was surprised to hear about it. The boys then told him that it is quite common on Earth.

The kids, being curious about the alien, asked him to tell them the place he had come from. The alien told them that people on his planet didn't need any money. They didn't fight each other. They could fly in space and there was no concept (概念) of time and much more about life on the planet. The boys became excited after learning about his planet.

At midnight, the engine was fixed. It was time to say goodbye. All were sad.

Just then, Ahmed asked, "Can we visit your planet? "

The alien replied, "Yes, but you need to end wars and be friends with each other first. If you start living peacefully on Earth, only then you will be able to visit my planet."
